

**REMARKS**

By this amendment, claims 1, 3-5, 9-12, 14-16, 20 and 24-28 are pending with claims 27 and 28 being newly presented.

The Examiner rejected claims 25 and 26 as being definite as it was unclear whether "a divider panel" referred to the divider panel recited in claim 16. By this amendment, claim 25 has been amended to recite a "said at least one divider panel" connected to an edge of said inner back panel by a fold line referring to divider panel 53 seen in Figure 1. Claim 26 has been amended to recite "said at least one divider panel" formed by a cut line in said inner back panel.

The Examiner rejected claims 16, 25 and 26 as being anticipated by U.S. Patent 4,307,806, Haubert. The Examiner stated that Haubert disclosed an inner back panel 42a and a first side panel and two divider panels, 40a, extending between inner back panel and front panel 38a. By this amendment, claim 16 has been amended to further define the structure of the divider panel of the invention. Specifically, the claims now recite that the divider panel is spaced from the side edges of the front panel.

Claim 26 further specifies the structure of the divider panels by stating that the divider panel is formed by a cut line in the inner back panel. Claim 27 specifies that the divider panel is laterally spaced from the side wall connecting the inner back panel to the front panel. The first side panel and divider panel of Haubert are vertically spaced, not laterally spaced. Claim 28 further defines the structure of the plural divider panels.

The claims are allowable and favorable action is eagerly and earnestly solicited. If any issues remain and the Examiner feels a telephone conversation will resolve such issues, the Examiner is urged to contact the undersigned attorney.

No fees are due and owing, but the Commissioner is authorized to charge Deposit Account 08-2455 any deficiency.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "Christopher J. McDonald", written over a horizontal line.
